10	Definition and concepts	<p>Number of enterprises supported which achieve higher value added per employee. The indicator counts enterprises for which the value added per employee for the fiscal year after the year of completion of output is at least 2% higher than the value added per employee in the year before the project started.</p> <p>The total value added is measured at factor cost as the gross income from operating activities after adjusting for operations subsidies and indirect taxes. The value added per employee is calculated as the ratio between the total value added and the annual FTEs employed in the respective year.</p> <p>(ESTAT2007 in references).</p>
