10	Definition and concepts	<p>Number of enterprises supported to sustain or achieve turnover growth. The indicator counts enterprises for which the annual turnover for the fiscal year after the year of completion of output is at least as high as the annual turnover growth in the year before the project started. For enterprises with no or negative turnover growth before the project started, the turnover growth rate during the fiscal year after the year of output completion should be at least 2%.</p> <p>The enterprise turnover comprises the totals invoiced by the enterprise during the reference period (one year) and it corresponds to market sales of goods and services supplied to third parties (ESTAT2007 in references).</p>
