10	Definition and concepts	<p>Annual number of unique registered children using the childcare facility supported. For achieved values, the estimation should be carried out ex post based on the number and size of groups of children using the facility at least once during the year after the completion of the intervention. The baseline of the indicator refers to the number of users of the facility supported estimated for the year before the intervention starts, and it is zero for newly built facilities.</p> <p>The indicator does not cover teachers, parents, auxiliary personnel or any other persons who may use the facility too.</p> <p>Childcare facilities such as creches and pre-schools are designed for children from birth to the start of primary education. The indicator covers childcare facilities that are newly built or modernised (for example, for increasing hygiene and safety standards), and modernisation does not include energy renovation or maintenance and repairs.</p>
